

6516208176.txt

I am a otr driver and I have become dependent on the traffic and weather on XM Satellite Radio because it helps to get around in the big cities and to stay out of any bad weather problems. I can count on the XM Radio to be clear and easy to understand. Am and Fm are not always clear and/or available.

Please do take take XM's instant traffic and weather off XM Satellite.

Thank you,

B. Brent Howell
